

Sunny Isles Beach Ocean Rescue

BEACH CONDITION HOTLINE

305.792.1940

The hotline provides a complete daily report on the conditions of the Sunny Isles Beach, including the high and low tides, air and water temperatures, wind speed and direction. It also informs you about possible rain, lightning, waves or rip currents, and any beach closures. Most importantly, by calling this hotline number, you can find out the color of the warning flags posted at our lifeguard towers and if there are any types of dangerous marine life in the water, such as jellyfish. You can learn some beach safety tips that could be useful prior to your arrival at the beach.
