In the winter 'Islander,' Cultural and Community Services Director, Susan Simpson wrote an article entitled "History in the Making." It was about the first retirement of a Mayor in the 17-year history of Sunny Isles Beach. When I read that article, I had no idea that our residents would elect me as the third Mayor of our City to fill the vacancy left by Mayor Edelcup's retirement. I am both honored and humbled to have earned the trust of my neighbors to serve as their Mayor.

Given the relatively small footprint of our City geographically, and the opportunity I have had to meet many of our residents, I now consider everyone within our City my neighbor! Our City is unique in this aspect and it is one of the main reasons we all truly feel like 'islanders.' As my wife Dione and I raised our three children on Atlantic Isle, we watched our City emerge from a sleepy (and often neglected) part of Miami-Dade County into a vibrant, multicultural, internationally renowned destination.

Since the early days of our City, we were fortunate to have the opportunity to participate in the myriad of meetings and workshops where decisions were made that influenced the growth and character of what we know today as Sunny Isles Beach. Throughout this process, many people from our community came together to work with our elected officials and staff to create a vision for our City. I can hardly believe that in a few short years our city will be 20 years old. In working to fulfill that vision, a lot has been accomplished such as, creating our parks, rebuilding our iconic pier and establishing our community school. But we still have a lot to do to keep our City moving forward and, as your new Mayor, I am very excited to be a part of that forward progress.

George 'Bud' Scholl Mayor
At our Government Center, residents can tend to building permits, police reports, mail, library services and more.

The 54,000 square-foot Sunny Isles Beach Government Center, opened in January, 2005, is located in a pedestrian friendly area at the heart of the City. The Government Center presents its most public expression toward Collins Avenue and is represented by the Commission Chamber surrounded by a civic plaza combining landscape, water, and contrasting building materials. This is where the serious business of running the City is conducted. Meetings are generally held the third Thursday of each month.

But what is housed inside this vision? Through inter-governmental partnerships, the first floor is primarily dedicated to services not under the City’s administration. Through the Federal Government, a satellite branch of the United States Post Office is open Monday–Friday. In cooperation with Miami-Dade County, the Sunny Isles Beach branch library is open Monday–Saturday and offers many classes and programs utilizing the City’s meeting room on the first floor. With support from the Sunny Isles Beach Tourism and Marketing Council, the Visitor Center completes the first floor, offering a wealth of information for tourists or residents looking to find "something to do" in South Florida.

The Center also issues SIB Resident ID cards for those with a picture ID and utility bill as proof of residence. Tickets to Cultural Events may be purchased there along with branded merchandise depicting SIB, Florida’s Riviera or Sunny Isles Beach, Miami.

The second floor houses the SIB Police Department which is open 24/7. During regular business hours, elevators from the lobby take customers to the 2nd floor. After hours, the police department can be accessed via the 2nd level of the parking garage. Accident and crime reports may be requested at the records department.

The third floor of the Government Center is the place for residents, visitors and contractors to visit and address issues of code enforcement and parking, apply for building permits or obtain business licenses. Fire plan reviews from Miami-Dade County are also offered on Tuesday at this location.

The fourth floor houses the city commission, the offices of the city attorney, clerk and manager along with human resources and finance departments. Constructions may make appointments to meet with their elected officials over matters that concern them. Public record requests are handled here by the City clerk.

Our top selections of this season’s Activities Throughout South Florida can be found beginning on page 24
I am happy to report that 2014 was a year of tremendous progress in our City on many fronts. We have seen growth in our tax base from both residential and commercial properties, substantial movement on many Capital Projects, significant increases and improvements to programs and services provided to residents, and a long overdue overhaul of the internal software systems across City departments.

There were six major projects under development last year that brought in a total of $9.58 million in additional revenue through development fees. There are another seven projects scheduled to start development in 2015, which are projected to bring in another $9.56 million in the coming year. The City Commission has used this revenue to fund our Capital Budget, since these are one time revenues. Additionally, each project goes through a rigorous screening process prior to approval to ensure that all City codes and requirements are met, and that our City’s ‘world class’ standard is upheld.

In my last annual update, I addressed Beach Sand Renourishment. Last year we spread 36,000 cubic yards of sand from the Sands Point Condominium to the Golden Strand Timeshare. Beach renourishment is one of the main focuses for City staff. We are working with coastal engineering experts to develop a strategy that addresses preserving our beach in the near future and in the long run.

Intracoastal Parks opened in April; however, with the partial collapse of the seawall on the south end in August, we realized that the entire wall should be replaced while under an emergency situation for which permitting was streamlined. The north end of the park remains open during the final phase of the repairs and the park is expected to be fully complete, including the playground, by this summer.

The development of Gateway Park is well underway with the parking garage and performance stage visible from Sunny Isles Boulevard. Completion is scheduled for August, with the pedestrian overpass bridge from the North Bay Road area to be completed by November. Gateway Park is the City’s largest park and will provide community gathering space, performing arts and dining that will be safely accessible by pedestrians and will provide ample parking for vehicles.

Phase I of the Town Center Park renovations was completed, which included sidewalk repairs, safety surface for the playground and exercise areas, new sod, new gates, and a new drinking fountain. Phase II includes shade structure repair, an additional gated entrance and vending machines.

We have enhanced staffing for our parks and community policing unit in order to accommodate the addition of Gateway Park and to maintain the high standard of safety and maintenance of all our parks.

2014 was a landmark year for the award of state funds. We received $1 million from the state legislature, split between the Performing Arts Stage at Gateway Park and the stormwater drainage project along 174th Street, which will start by Summer 2015.

We launched an internship program for college students and recent graduates interested in public service. This program provides them with an opportunity to gain practical knowledge through hands-on experience in municipal government and to apply what they learn in the classroom to real world situations.

Our Cultural and Community Services Department continues to make strategic changes to some of its main events, resulting in much better quality and attendance for those events:

• Spring Fling will move to the gymnasium at Pelican Community Park, allowing for more space and better amenities as the Holiday Ball did in 2014
• Egg Scramble and Booogie by the Beach will again expand the event space onto 181 Drive
• Jazz Fest was produced in house in 2014 as it will be in 2015, reducing the expense while improving the overall event.

We constantly evaluate the quality of our facilities and services to optimize the benefits to our residents and visitors.

In the Building Department, we implemented a new Building and Permitting Public Portal that allows users to access the permitting process online, including access to permit information, checking permit status updates, inspection requests, etc. We also added a new program, Specialized Permitting Services. For the more involved interior remodeling projects, users can purchase this service for an additional fee which will provide concierge service throughout the permitting process, from start to finish, including expedited plan review.

We successfully implemented a new financial software system that consolidated and streamlined our financial and human resource functions across departments. Also on the technology front, we transitioned the City’s record keeping system to be primarily electronic. We also launched social media accounts on Facebook, Twitter and Instagram, which provide important information to residents regarding events and information throughout the City.

We look forward to continued progress in the coming year, completing some projects and starting others.

Spring is a time of new beginnings, especially for Sunny Isles Beach in 2015 as we embark on a new era of leadership with the newly elected Mayor George “Bud” Scholl leading the City. If you have not done so already, be sure to read his welcome letter on page 2 of this magazine. He is excited about what the future holds for our community.

The team at Pelican Community Park is also eager to start planning for the future of Sunny Isles Beach and in order to do that, we need to hear what you have to say. In February, a new series of Focus Group sessions will give us an opportunity to learn more about the needs and desires of our residents. These sessions will continue through the end of March so please be sure to attend one if you have not done so already. We will use this information to plan our programs and events for the upcoming year and beyond.

For those of you that can't find the time to join us, we will be sending out electronic surveys via our email database. Please participate so your opinion can be considered. And as always, you can send in comments and questions through our website, sibfl.net. Remember, this is your city. Help us make it what you want it to be.

Susan Simpson, Director
Cultural and Community Services

Police Department
Due to the geographic design of the City, the Police Department is able to respond to emergency calls within two minutes. Both the 911 call centers and the direct line to City dispatch are open 24 hours to handle all calls for service, both emergency and routine. The agency is known for its strong emphasis on community policing and involvement in city events. The police department has been recognized at both a national and state level for award winning programs and life safety rescues. The department prides itself on its delivery of customer service through its motto of “making a difference, one call at a time.” Police Department (for emergencies dial 911), SIB Government Center, 18070 Collins Avenue, 24/7 access on 2nd floor parking, 305.947.4440.

Parking Lots
Take care when driving or walking in and out of parking lots. Pay special attention to the blind spots on the sides of cars where it is difficult for drivers to see pedestrians. Beach parking is available in public parking lots. For a list of lot locations, visit www.sibfl.net, or see pages 12 and 13 of this magazine. Parking in private lots is for customers only and others are subject to towing.

Daytime
On sunny days, drivers often experience glare. Pedestrians should wear bright colors to be seen more easily. Do not rely on drivers to see you, but rather, be aware of vehicle presence.

Nighttime
At night, even with streetlights, it is difficult for pedestrians to see vehicles and judge how fast they are going. Pedestrians should wear light colors to be seen by drivers. Be extra cautious. See and be seen.

Seat Belt Law
Florida law states that the driver and front seat passengers must wear seat belts. Seat belt laws apply to all vehicles operated on Florida roads. In addition, all passengers under 18 years old must wear a seat belt or be otherwise restrained by a child car seat. It is against the law to operate a vehicle if all the passengers do not meet these standards.

Speed Limits
The Sunny Isles Beach Police Department strictly enforces the following speed limits: 35 miles per hour on Collins Avenue (A1A) and Sunny Isles Boulevard (SR 826); 20 miles per hour on all other streets in the City.

Pedestrian Crossings on Collins Avenue
For your safety, walk on sidewalks, not on streets and do not leave the curb suddenly. Cross at the corners, looking both ways before crossing. Hedges and fences in the medians of Collins Avenue are intended to discourage unsafe crossings. Jaywalking on busy city streets is very dangerous as well as illegal. Watch for turning vehicles. Cross at intersections where there are traffic lights. At most traffic lights, there are buttons to push to get the walk signal, which is a lighted ‘walking person.’

In February, a new series of Focus Group sessions will give us an opportunity to learn more about the needs and desires of our residents.
The benefits of membership provide individuals and families with use of state of the art facilities, priority program registration as well as discounts.

our parks

Parks provide a chance for people to connect. They are where lifetime friendships are formed. They are where the gap between generations is bridged and people discover what they have in common. Parks are where a sense of community is established and are a vital component of A World Class City.

All City parks are Wi-Fi Hotspots where wireless internet access is free and commercial free. Unless otherwise indicated, City parks are open every day from sunrise to sunset. All parks are equipped with a Thor Guard Lightning Prediction System that provides advance notice of lightning conditions. When activated, here is how the system works:

1. ONE long horn blast indicates possible lightning in the area
2. Get TO a safe indoor area quickly
3. THREE shorter horn blasts signal that it is safe to return to the park

QUALITY OF LIFE

Once visitors find this wonderful vacation spot that we call home, they return again and again. Sometimes, the visitors become residents, drawn by the walkable space, the family-friendly atmosphere and the plethora of outdoor activities.

The quality of life is enhanced by many factors such as high-end homes, conveniently located retail stores, a variety of community and recreational programs, a complimentary shuttle bus service, and an active senior population. These, as well as the award-winning Police Department, our A-rated schools and quality healthcare, are important factors that draw buyers to purchase here in Sunny Isles Beach.

As you can see, the city offers a variety of quality community and recreational programs. Working closely with the schools and other community organizations, we believe in developing the entire student: mind, body and soul. The City’s High School Graduates College Scholarship Program encourages students to continue to a University after graduation.

The Police Department believes in proactive community policing. They are in the schools, on the streets, in the parks and always there for you. They are often at City events providing helpful safety tips and promoting safety programs such as:

Car seat installations
Schedule an appointment at the Police Station and a Certified Car Seat installer will install your car seat into your vehicle at no charge. This ensures proper use and saves lives.

Bike helmet fittings
Don’t have a bike helmet? In this bike friendly community, the police department will provide one for you and ensure that it fits properly before you leave the station. They also provide helpful bike safety tips and reflective gear for walking and biking at night to keep you safe.

Shred-a-thons
Identity theft is on the rise all over the country. Protect yourself from the risk of someone capturing your personal information by visiting the SIBPD semi-annual Shred-a-thon. It is free and insures complete shredding of your personal documents to keep you safe from the criminals you don’t see.

Contact Sandra Block at the Police Station at 305.792.1839 for these programs and so much more.

Healthcare
This area boasts two of the finest medical facilities in the South Florida region.

Aventura Hospital is run by one of the nation’s first hospital companies, which was founded by physicians. This Aventura location has served the region for more than 37 years and is a fully accredited 407-bed acute care facility which provides award-winning impatient and outpatient diagnostic, medical, surgical and cancer services.

Mount Sinai Medical Center is the largest private independent not-for-profit teaching hospital in South Florida, combining technology, research and academics to provide innovative and comprehensive care in cardiology, neuroscience, oncology and orthopedics. The Center is committed to quality and is the hospital of choice for those who seek the level of expertise and care that only a teaching hospital can offer.

In addition to providing quality health care, Mount Sinai Medical Center is committed to helping people in our community live better, healthier lives. Mount Sinai offers a variety of free and vital community programs such as support groups, health screenings and a medical lecture series. A full schedule is available at msumc.com. And, accessing Mount Sinai physicians is now easier than ever for Sunny Isles Beach residents; the medical center will open a new satellite office location at 323 Sunny Isles Boulevard.

Sunny Isles Beach: We’re So Glad You Asked!
A sparkling and lively city that offers its visitors an international-style vacation. August 2009, the population of Hengchun was 31,123. The climate is a ‘tropical savanna’ which means average temperatures are above 18 °C (64°F) every month during the “winter” months.

Taormina, Italy

Taormina is a small town on the east coast of the island of Sicily, Italy, in the Ionian Sea and is a forty-five minute drive away from Europe’s largest active volcano, Mount Etna.

Taormina is a popular tourist destination. Besides the Greek Theatre, it has seemingly never-ending promenades, wild cliffs, rare nature reserves and green parks.

Netanya, Israel

Netanya is a sparkling and lively city that offers its visitors an international-style vacation. As a true resort town, you will find in Netanya plenty of entertainment, culture and leisure centers: coffee houses, a variety of restaurants, shopping centers, a lively market, movie theatres, art galleries, as well as various outdoor events and festivals that are held during the summer and open to the public.
