Every day I am reminded why I live in this beautiful city. The weather, views and activities are all driving factors, but the safety of the City of Sunny Isles Beach is unparalleled. Our police department serves the community around the clock and it is no surprise that the city is regarded as one of the safest municipalities in Miami-Dade County. In 2018, our total crime index was 336, down 8 percent from 2017. And out of the 336 crimes committed, 89.9 percent were nonviolent property crimes. The department's clearance rate, the rate at which a crime is solved, is 29.8, which means we are in the top tier of clearance rates compared to the rest of the county.

Led by Chief Dwight Snyder, our police department is composed of 56 sworn officers, 13 non-sworn personnel and 37 lifeguards, all committed to the safety and well-being of the Sunny Isles Beach community. Trained at the highest caliber, our officers assume the responsibility of protecting the city above all. I'm sure you have seen our officers patrolling the streets or at our city events, but they are also active in our community in a multitude of additional capacities.

Last holiday season, the department participated in the annual Police Officer Assistance Trust (POAT) holiday gift drive at the Aventura Mall, where they collected donations for children of law enforcement officers who died in the line of duty. In November, several officers delivered turkeys and produce to Sunny Isles Beach families in need as part of the Miami-Dade County League of Cities Annual Thanksgiving Turkey Drive.

Twice a year, the Police Department hosts a Shred-A-Thon and DEA Drug Takeback Day, where residents can bring confidential documents to safely shred or dispose of old or unwanted prescription drugs. Throughout the year, PD offers bicycle helmet fittings and car seat installations for individuals and families. For those of you with children at the school, you probably know or have seen Sergeant Gonzalez, our school police resource officer. She is on campus every school day to ensure the safety of our students.

Since its inception in 1998, the Sunny Isles Beach Police Department has developed into a force of award-winning and highly skilled officers and staff. As we enter a new decade, our police department is stronger than ever in their pursuit to keep our city safe.

Government offices are closed on federal holidays.

The Sunny Isles Beach Government Center, situated in a pedestrian-friendly area at the heart of the City, opened in January 2005.

Within the 54,000-sq.-ft. edifice is the Commission Chamber surrounded by a civic plaza, combining landscape, water, and contrasting building materials. The internal operations of the City are conducted in this building, and government meetings are generally held the third Thursday of each month.

Housed inside this vision you will find a satellite branch of the United States Post Office open Monday-Friday, brought through a partnership with the Federal Government, and the MDC Sunny Isles Beach branch library open Monday-Saturday, which offers an assortment of classes and programs in the City's first floor meeting room.

The first floor is completed with a Visitor Center, supported by the Sunny Isles Beach Tourism and Marketing Council. The Visitor Center offers tourists and residents alike a wealth of resources for finding activities and events

around South Florida. Sunny Isles Beach branded merchandise along with tickets for all events and programs are available for purchase as well.

Housed on the second floor of the Government Center is the SIB Police Department, open 24/7. Elevators from the lobby take visitors to the second floor during regular business hours, though after hours, the police department can only be accessed via the second level of the parking garage. Accident and crime reports may be requested at the records department.

The third floor of the Government Center provides residents, visitors and contractors information regarding code compliance, parking, building permits and business licensing.

The fourth floor is home to the City Commission; offices of the City Clerk and Manager; human resources department; and finance department. Constituents may make appointments to meet with their elected officials or request public records from the City Clerk.

## Sunny Isles Beach Becoming a City of Art

Christopher J. Russo  
City Manager

*At its core, the city is focusing on using infrastructure as an opportunity to create art based on certain standards, guidelines, and goals established by the PAAC.*

The City of Sunny Isles Beach is known as a hub of beautiful architecture, but now we are also becoming a city known for art. In 2016, the city commissioned a Cultural Master Plan (CMP), which, among other things, was designed to strategically use art and culture to enhance the aesthetic appearance and overall quality of life in the city. At the same time, the CMP creates a new sense of community for the diversity of cultures that make up our residents.

In this regard, our Art in Public Places ordinance requires developers to include an element of art as they construct their projects. Many of our quality developers are embracing this new requirement as an opportunity to enhance their own projects and a way to improve the urban environment, increase the use of public space and celebrate our community. Working with our newly formed Public Arts Advisory Committee (PAAC), which consists of six highly credentialed residents, a public art curator and appraiser, and a CMP consultant, we are already seeing new pieces around the city. Last year, the Ritz Carlton unveiled a beautifully commissioned sculpture created by renowned sculptor Pablo Atchugarry. Carved from Carrara marble and standing 11 and half feet tall, "Dreaming the Future" sits at the base of the Ritz Carlton near the sidewalk for residents, passersby, and visitors to enjoy.

The corner of 163 Street and Collins Avenue will soon display a Manolo Valdes sculpture known as "Blue Butterflies" at the new office building by Joseph Milton and the St. Tropez developers. This artist has similar pieces throughout Valencia, Spain; Place Vendome, Paris; Berkeley Square, London; Tapei, Taiwan and now, Sunny Isles Beach.

Armani Casa developers on the east side of Collins Avenue are approaching art from a different perspective. To create an innovative and sustainable work of art, they are installing "The Green Wall" by Enea Landscape Architects and LiveWall. The unique plantings of this piece bring passersby a sense of calm set against the steel and glass structure behind it.

On the city's end, the PAAC is designing a meditation garden on the site of the old skate park contained within Town Center Park. The garden will be landscaped and shaded, and also include some interesting artistic pieces. Park visitors will be greeted by a very uncommon wire contemporary art sculpture by Korean artist, Seo Young-Deok, composed of a metal grade link chain depicting a woman meditating. The piece is approximately 10 feet tall and six and a half feet wide, and was contributed by the developers of the Muse Project. The garden will also feature a meditative reflective fountain using polished stainless steel, light and water. The fountain is designed by English artist, David Harber, who has pieces in England, France and various sites across the United States.

At its core, the city is focusing on using infrastructure as an opportunity to create art based on certain standards, guidelines, and goals established by the PAAC. Three overarching goals exist in terms of infrastructure throughout the city:

- Unifying pedestrian movements and pathways.
- Creating conversation through community bonding.
- Improving and enhancing existing focal points.

Hereof, the city's pedestrian bridges over Collins Avenue will feature forward-thinking architectural design. The Commission is also looking to re-imagine and replace the current identifying signage at the city's four entrance and exit points. This is an opportunity to create unique "signature" art for the city. The concept of crosswalk art on local streets is also being explored.

We continue our quest to procure new artwork and establish art events. Several events have already been implemented - outdoor painting pop-ups on the pedestrian bridge and the beach; the creation of a painting club; and a pop-up art show in the Government Center. New cultural events are also coming into focus. For example, this February, the city is hosting Symphony of Flavors at Gateway Park, blending locally-sourced fine dining and orchestral music in an intimate outdoor venue.

Finally, through surveys conducted by Cultural Master Plan consultants, we learned that both developers and residents alike have expressed interest in hosting an art festival. To that regard, the PAAC is exploring future partnership opportunities with a national arts festival. We are starting to see beautiful enhancements around Sunny Isles Beach and have more to come. Stay tuned for future artistic updates.

## Everything About Sunny Isles Beach *We're So Glad You Asked!*

Visitors return yearly to our coastal beach oasis enjoying the walkable paradise with family-friendly parks, luxurious hotels and pristine beaches. This desirable location, with its proximity to the ocean, inspires many vacationers to make our city their permanent home.

Immediately apparent to those who visit Sunny Isles Beach, the quality of life here is second to none. With high-end homes, conveniently located retail stores, an assortment of community and recreational programs, and a free shuttle bus service, the city is an inviting oasis for visitors and residents alike. When you consider our award-winning Police Department, A-rated schools, and superior healthcare resources, there is no other city quite as alluring as Sunny Isles Beach.

We deeply believe working closely with schools and community organizations helps develop a well-rounded and cultured student. The city encourages students to further their education following high school with the College Scholarship Program.

## Clean Water Campaign

We are committed to assisting and educating the community about our Clean Water Campaign. Our responsibility for clean water begins at home and continues in the workplace and the public spaces we enjoy. Visit our website at [sibfl.net/cleanwater](http://sibfl.net/cleanwater) to learn more.

## THE MEANING OF PEDESTRIAN SIGNALS

### Walking person symbol

Stays on about 7 to 15 seconds

**ACTION:** Walk briskly across the crosswalk.

### Flashing hand symbol

Counts down by seconds

**ACTION:** Consider where you are before you take action. If you are in the middle of the crosswalk, keep walking briskly. If you are standing on the curb, stop. **DO NOT** start crossing; wait for the next walk signal. The flashing red hand tells you there is not enough time to begin walking.

### NON-flashing hand symbol

**ACTION:** DO NOT WALK

Wait for the walking person signal to flash. Your safety is worth a few seconds more of wait time.

## for your safety

Please review these guidelines to ensure a safer experience in Sunny Isles Beach for pedestrians, cyclists and vehicular traffic. The speed limit on both state roads, Collins Avenue and Sunny Isles Boulevard, is 35 miles per hour. The speed limit on all side streets in the City is 20 miles per hour. At designated times, in school zones, the speed limit is enforced at 15 miles per hour.

### On the Road

- Texting while driving is now a primary traffic offense. Drivers are prohibited from utilizing any type of wireless communication device to type or send electronic messages while the vehicle is in motion, and prohibited from using any type of handheld communication while driving in a designated school zone or active construction area where workers are present.
- Remember: pedestrians always have the right-of-way.
- Use caution when turning and look both ways to ensure a pedestrian is not in a crosswalk.
- When the pedestrian crossing light is flashing, vehicles **MUST** stop; it's the law.
- Vehicles must come to a complete stop in both directions when a school bus is stopped with flashing lights.
- No stopping or standing is permitted in driving lanes.
- Always wear a seat belt in the car.

### On the Sidewalk

- Never assume a vehicle will stop for you; do not rely on drivers to see you.
- Walk on sidewalks and do not leave the curb suddenly.
- Cross at intersections with traffic lights featuring a lighted 'walking person.'
- City Ordinance 2014-432 prohibits skateboards and hoverboards on sidewalks along Collins Avenue and Sunny Isles Boulevard.

### On a Bicycle

- Bicyclists may ride on a marked bike path from Heritage Park in the north end of the City to Gateway Park in the south with only a short traverse onto Collins Avenue near Publix.
- Always wear a bike helmet properly.
- To be more visible to motorists use front and back flashing lights.
- Use hand signals when turning or slowing to a stop.
- While bicycles should have the right-of-way, make eye contact with drivers to understand their intentions.

### What's New

Government Center Pedestrian Crosswalk Light

- This completed crosswalk allows easy access to safely traverse Collins Avenue.

Government Center & 174 Street Pedestrian Bridges

- These two future bridges over Collins Avenue will provide a safe way to cross Collins Avenue back and forth from east to west.

All SIBshuttle buses offer free Wi-Fi and are accessible, equipped with a lift for wheelchairs. In addition to connecting with neighboring cities such as Aventura, Hallandale and North Miami Beach, the SIBshuttle provides free transportation to and from the Mount Sinai Medical Center, 4300 Alton Road, Miami Beach, from most residences within the City. DAYS: Monday, Wednesday, Friday. TIME: Pickup, 9:00 am and noon; Return, 12:30 and 4:00 pm. Call 305.792.1706 to make a reservation by noon the prior weekday.

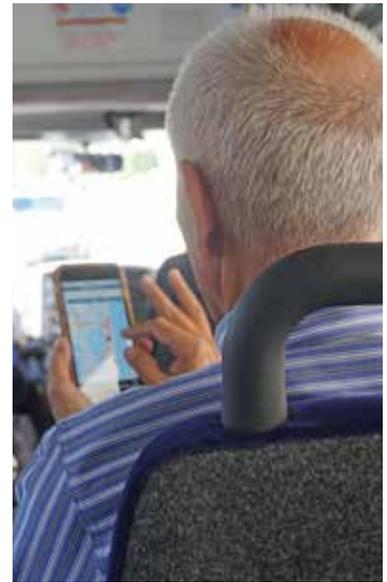

#### MOBILE APP

To see the SIBshuttle's real-time location, arrival time and a list of stops, download the mobile app, SIBshuttle. Available on the App Store or Google Play.

#### HOTLINE

The next time you're at an SIBshuttle bus stop, call the hotline at 305.741.0907, to find out your wait time. Identify your line, provide your stop number, and determine your direction.

The SIBshuttle is funded in part by the Miami-Dade County People's Transportation Plan.

### Free Wi-Fi on all SIBshuttle Buses

*Our SIBshuttle buses are equipped with an assortment of amenities for riders. We understand staying connected during your commute is important, which is why every SIBshuttle has free Wi-Fi. Connect to SIBIWIFI on your next journey. And don't forget to check the schedule on our SIBshuttle mobile application!*

# welcome!

*Throughout the next two years, we are determining how to position the city to best represent our residents, businesses, and services.*

The City of Sunny Isles Beach has undergone a remarkable transformation throughout the last 23 years, from being known as “Motel Row” to now a family-friendly haven with luxury high-rises and an assortment of amenities for all. We’ve seen a few slogans as the years progressed, the first being “A Life with a View,” then “Florida’s Riviera” and “A World Class City.” As we enter a new decade in the city’s history, it is time to officially define who Sunny Isles Beach is and where we are going.

In a mutually collaborative process, we are working with Jacober Creative to rebrand Sunny Isles Beach. You might be wondering, ‘what is rebranding?’ Throughout the next two years, we are determining how to position the city to best represent our residents, businesses, and services. And your input is imperative as we move forward with this project.

At the beginning of the year, we conducted focus groups with residents, business owners and city employees, gaining unique insight into how these stakeholders view our current city brand and where they see the city moving forward in the future. We are currently in the process of conducting interviews and surveys to collect even more data from an extensive group of individuals living in the city, working in the city, and visiting the city.

Once all of our research is collected and analyzed, Jacober will begin the creative aspect of the project by developing a new logo, tagline, and overall brand for Sunny Isles Beach. Based on the data collected from everyone, they will present a new look for the city, encompassing the true spirit of Sunny Isles Beach.

We invite you to join this process by providing your honest and constructive feedback about Sunny Isles Beach’s current brand, expectations and future. This is a very exciting and extensive project we are embarking on, which will culminate with a new brand that embodies the present and future of this great city in which we live and work.

Look out for future opportunities to participate in this project on our website at [sibfl.net/rebranding!](http://sibfl.net/rebranding!)

# Sister Cities

The Sister Cities International Program was initiated in Sunny Isles Beach in 2005. The program encourages the exchange of culture, tourism and commerce between the member cities. Sunny Isles Beach currently has four Sister City partnerships.

Taormina, Italy

## Taormina, Italy

This medieval town on the east coast of Sicily, Italy is known for picturesque cliffs overlooking the Ionian Sea. The historic city, also a destination for cruise ships, was founded in the fourth century B.C. and offers visitors a chance to stroll down quaint city streets, visit shops and restaurants all while soaking up the unique atmosphere. Taormina is home to Europe's largest active volcano, the Ancient theatre of Taormina, magnificent beaches, old churches, antique shops, lively bars and fine restaurants. Each June, for more than six decades, film industry greats have gathered at the Taormina Film Fest for one of Europe's premier film festivals. For more information, visit [comune.taormina.me.it](http://comune.taormina.me.it).

## Hengchun, Taiwan

This historic town at the southernmost tip of Taiwan island features "Hengchun Old Town," an archaeological site with four giant stone gates and a wall from the 1800s. Kenting National Park offers a glimpse of Taiwanese rural life, with 300 miles of bike trails, and is the gateway to tropical beach resorts where blue waters and pristine beaches offer visitors a place to body surf and snorkel. Pingtung County has a pure mountain-fed municipal water system enabling the town of only 30,000 to host more than one million tourists a year. For more about this amazing "Eternal Spring" destination, visit [hengchuen.gov.tw](http://hengchuen.gov.tw).

## Netanya, Israel

Netanya was the first city formed in the new state of Israel in December 1948. A host of historical sites offer glimpses of ancient history and demonstrate the genius of the inhabitants from 2,000 years ago. The modern city boasts beautiful beaches, wild cliffs, nature preserves and green parks. Visitors can find an assortment of entertainment, culture and leisure options, such as coffee houses, restaurants, shopping, a lively market, movie theatres, art galleries, outdoor public events and festivals. For more information, visit [netanya.muni.il](http://netanya.muni.il).

## Punta del Este, Uruguay

This tourist destination is known for its beautiful beaches, casinos, luxury hotels, spas, restaurants and nightlife. Its location on a peninsula accentuates the natural beauty of white sands, sparkling blue waters, dunes, islands and lakes, abundant wildlife and exotic botanicals along the Atlantic shoreline. Visitors can find many ways to spend their time, such as boating, visiting the beach, horseback riding, shopping, enjoying a round of golf or viewing fur seals or sea lions on Isla de Lobos.
