SUNNY ISLES BEACH IS ECOMMITTED

Upon receiving this AIRNEX Composting Bin, I, (), hereby pledge to adhere to the attached set of compostable materials when transferring my food and yard waste to a designated community drop-off site (Pink 64 gallon Compost for Life container).

Currently, Gateway Park serves as the only operating community drop-off site. A potential expansion to multiple drop-off sites throughout the city will be contingent on public participation in the program, and all options will be evaluated at a later date. The Gateway Park community drop-off site will be open to residents during the hours of Gateway Market, every Wednesday from 5:30 PM – 10:00 PM.

We strongly believe that this composting program has the power to not only reduce food waste, promote healthier diets, and

support local farmers, but that it can lead to a shift in our attitudes and behaviors as stewards of the earth.

However, our aspirations for this program can only be reached through a unified approach from all the citizens of Sunny Isles Beach who elect to participate. Failure to comply with the appropriate materials attached will not only result in contamination of the contents of the offender's AIRNEX bin, but also may invalidate the efforts of fellow neighbors who were careful not to violate the composting protocol.

This composting initiative is a part of the greater city-wide ECOMMITTED campaign, which reinforces our obligation to protect this planet and create clean, livable spaces that will vitalize our community for generations to come.
